

The family AI homework rule

The teacher's rule beats this card. Check it first, every class.

USE AI TO

+ Explain

"Explain this a different way, like I'm 10."

+ Quiz

"Ask me five questions on this chapter. Wait for my answer each time."

+ Review

"Here's my paragraph. What's unclear? Don't rewrite it."

DON'T USE AI TO

- x Write the answer, the essay, or the paragraph
- x Do the steps of a problem you're meant to do
- x Make anything you'll hand in as your own

The test: could you explain it to a grown-up tomorrow, with no screen? Yes means AI helped you learn. No means it did your homework.

Our AI Homework Deal

We read the family rule together. Here's what we each agree to.

KID: I PROMISE

- ☐ I'll check my teacher's AI rule first, for every class.
- ☐ I'll use AI to explain, quiz, and review, not to write my answers.
- ☐ Everything I hand in will be my own words and my own steps.
- ☐ I'll check what AI tells me before I trust it.
- ☐ If I'm unsure a use is okay, I'll ask first.

GROWN-UP: I PROMISE

- ☐ I'll try these tools myself, so I'm not guessing.
- ☐ I'll ask you to explain it back, not accuse you.
- ☐ An honest mistake is something we fix together.
- ☐ I'll follow your teacher's rule too, even when it's different from ours.

Our own extra rule:

We'll check in on this deal again on: _____

Kid

Grown-up
