

A Hi, Bot block in your building

For schools, after-school providers, and enrichment coordinators · ages 8–16 · 60 minutes

AT A GLANCE — WHAT IT ASKS OF YOU

Your staff does	Point us to the room. Sessions are delivered by Hi, Bot's background-checked facilitators at a 1:6 ratio, on a scripted curriculum.
Space needed	A classroom or cafeteria corner with tables. Everything fits in two carried bins.
Noise & mess	Classroom-level. Dry, screen-free materials; the room is reset before your next activity block.
Fits your schedule	Sized for a standard enrichment slot — hard start, hard stop, kids lined up on time.
Insurance & compliance	General liability coverage, with your site named as insured. All staff background-checked.
Funding fit	Priced as a single program fee from budgets that already exist — enrichment lines or 21st CCLC.
Your cost	One fee per module. No per-family billing ever touches your office.

SAMPLE 60-MINUTE AFTER-SCHOOL BLOCK

When	Segment	What happens
0:00–0:05	Transition in	Check-in and table assignment as kids arrive from dismissal.
0:05–0:15	AI Arena warm-up	The Telephone Brain — kids become neurons in a human neural network, passing and weighting signals to recognize a shape.
0:15–0:45	Core build	The Cluster Machine — teams sort mystery objects the way a clustering algorithm does, then defend their categories.
0:45–0:55	Demo & reflect	Each team shows its clusters; facilitator names the AI concept they just used.
0:55–1:00	Reset & line up	Room reset, kids lined up for pickup or the next block.

NEXT STEP Commission a pilot module — a 30-minute walkthrough and a free demo workshop come first. Start at hibot.space/contact?topic=partner
