

What a licensed activity pack contains

For schools, co-ops, subscription boxes, and kids-edu brands · 25 packs, 111 pages, screen-free

AT A GLANCE — WHAT IT ASKS OF YOU

What you license	Site licenses or co-branded editions of 25 screen-free AI activity packs with facilitator guides — ready to run tomorrow.
Who runs it	Your own staff. Every pack includes a scripted facilitator agenda — no AI expertise required to deliver.
What's in a pack	A branded cover, learning objectives, numbered games with "THE AI INSIDE" concept callouts, a 60-minute agenda, supplies list, take-home challenge, and answer keys.
Materials	Household and classroom supplies only — pasta, paper, beads, matchboxes. Nothing to source from us.
Age fit	Core range 8–16, with flex guidance down to 5 printed in each pack.
Your cost	A site-license or co-brand fee scaled to your audience. Your distribution, our library.

SAMPLE FACILITATOR AGENDA FROM A LICENSED PACK (THE CLUSTER MACHINE)

When	Segment	What happens
0:00–0:10	Hook	Dump the mystery-object bin. Ask: how would a machine with no labels sort these?
0:10–0:35	The build	Teams cluster objects by features they choose, exactly as a clustering algorithm does.
0:35–0:50	Trade & test	Teams swap tables and try to reverse-engineer each other's sorting rules.
0:50–0:60	Name the concept	Facilitator reads the "THE AI INSIDE" callout: unsupervised learning, in kid terms.

NEXT STEP Ask for the sample pack — we'll send a full activity PDF and the license sheet. Start at hibot.space/contact?topic=partner
